

McCluer North High School
Multi-Tiered System of Supports
(MTSS) Framework
2022-23

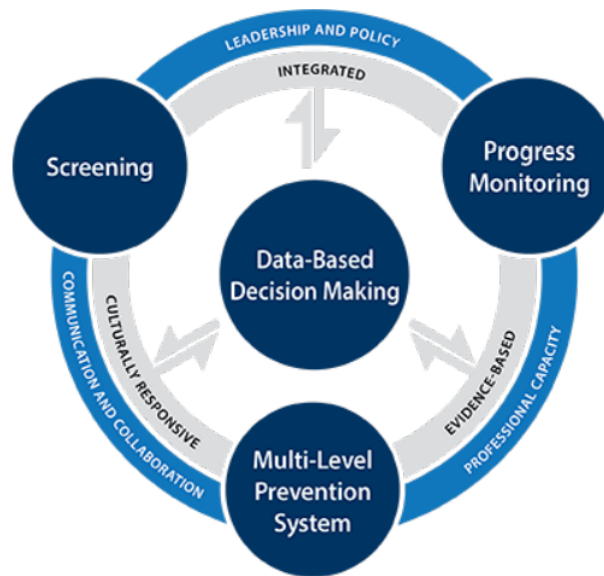

The members of the McCluer North Community will empower each student to become positive and effective citizens.

Multi-Tiered System of Supports (MTSS) Framework: Introduction

What is MTSS?

Multi-tiered system of supports (MTSS) is a framework that integrates data and instruction within a multi-level prevention system to maximize student achievement and support students' social, emotional, and behavior needs from a strengths-based perspective. ([Center on MTSS, 2020](#))

Essential Components of MTSS:

- Universal Screening
- Multi-Level Prevention System
- Progress Monitoring
- Data-Based Decision Making

Universal Screening:

Universal Screening uses a systematic process for identifying students who may be at risk for poor learning outcomes, including academic, behavioral, social, emotional, school completion, and college and career readiness outcomes. Screening data can also be used to identify schools that need support due to large numbers of struggling students.

Multi-Level Prevention System: Tiered Systems of Supports

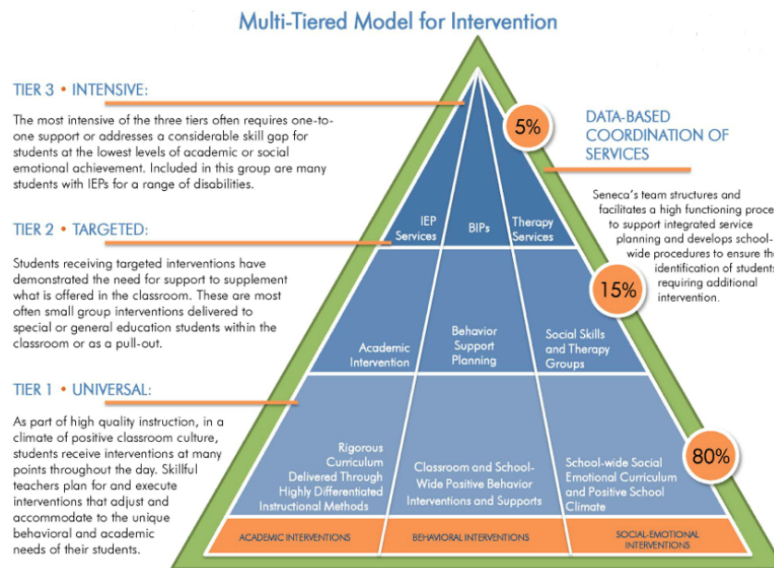

MTSS is a comprehensive framework for providing academic, behavioral, and social-emotional support in schools.

The multi-level prevention system includes three tiers of intensity for instruction, intervention, and supports. At all levels, attention should be on selection of evidence-based practices and fidelity of implementation, with consideration for cultural and linguistic responsiveness and recognition of student strengths.

Tier 1 (universal) includes high-quality, school wide academic, social, emotional and behavioral programming and supports designed to meet the needs of all students.

Tier 2 (targeted) schools provide small group, standardized academic interventions or targeted behavioral or mental health supports using validated intervention programs to support students identified as at-risk.

Tier 3 (individualized) includes intensive intervention for students not responding to Tier 2 through instruction and supports that are intensified and individualized based on student need. ([Center for MTSS](#))

[Multi-tiered Model for Intervention](#)

Progress Monitoring:

Progress monitoring uses valid and reliable tools and processes to assess performance, quantify improvement or responsiveness to intervention and instruction, and evaluate the effectiveness of instruction, interventions, and supports.

Data-Based Decision Making:

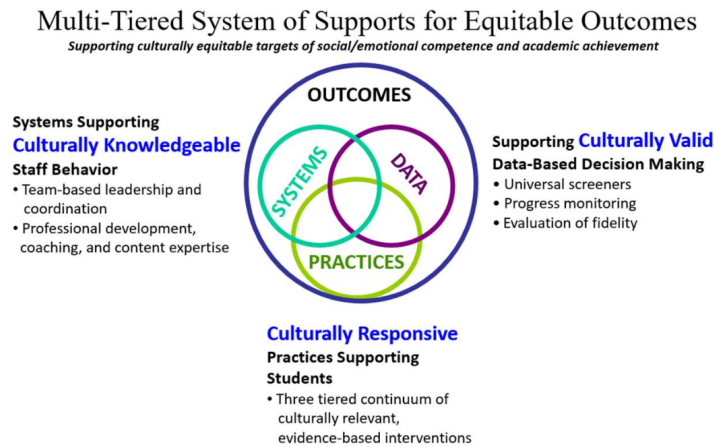

Data analysis and decision making occur at all levels of MTSS implementation, from individual students to the district level. Teams use screening and progress monitoring data to make decisions about instruction, movement within the multi-level prevention system, intensification of instruction and supports, and identification of students with disabilities (in accordance with state law). Teams use implementation data to evaluate the extent to which their assessments, interventions, and supports

have been implemented as intended and identify areas of improvement.

Tier 1 Universals: Academic, Behavioral, and Social Emotional

Academic Universals	Behavioral Universals	Social Emotional Universals

Equity, Anti-Racism, Cultural Responsiveness and MTSS

The FFSD MTSS Framework is rooted in our work in equity and anti-racism. In order to fulfill our mission to become an anti-racist school district, we must commit to serving all students equitably. Culturally responsive practices, systems, and data within a Multi-Tiered System of Supports are necessary to achieve equitable outcomes for all.

The Ferguson Florissant School District is a community of learners committed to equity and the success of each student. This commitment means that student success will not be predicted nor predetermined by race, ethnicity, family economics, mobility, language, gender, gender identity, sexual orientation, disability, or initial proficiencies or zip code. Recognizing that each student has a unique identity is central to our work in education. The Ferguson-Florissant School District, school and classroom decisions, policies, and practices affect each student differently depending on the components of that student's identity. Our commitment to equity supports fostering an inclusive and barrier-free environment in which everyone will fully benefit. To that end, the [Ferguson Florissant Equity Lens](#) was developed to assist district staff and leaders when making decisions.

To maximize student excellence and social justice, Ferguson-Florissant School District is on its journey to becoming an anti-racist organization that furthers educational equity for all students, especially our most marginalized students. FFSD Standards for Social Justice in Anti-Racist Schools will further our progress in this journey, challenging us to understand and correct the inequities that may unintentionally exist within our district, to proactively act in ways that promote anti-racism, and to build on the strengths that have enabled our past progress around race and bias. Similar to educational standards, FFSD Standards for Social Justice in Anti-Racist Schools represent the vision and goals that we will achieve as we move towards becoming an anti-racist organization. [FFSD Anti-Racism Standards](#)

The standards focus on seven areas:

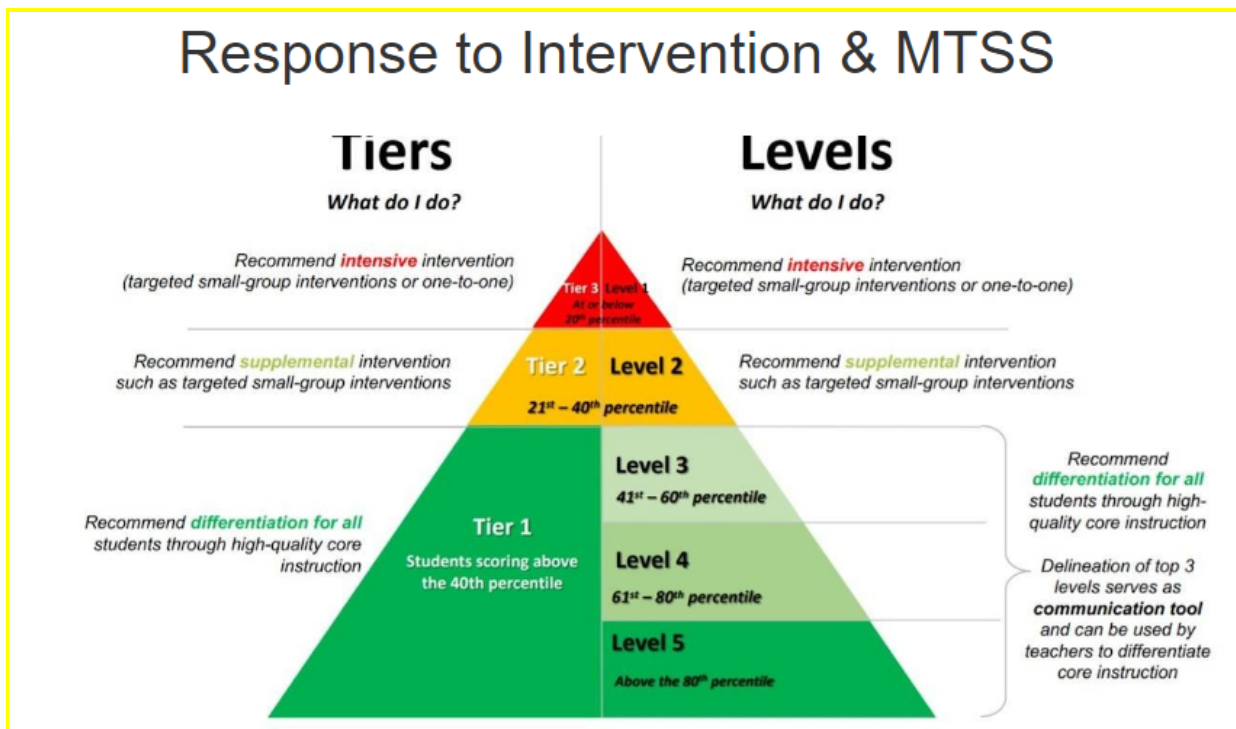

- Student and Family Empowerment Rights
- Student Development and Progress
- Communication, Dialogue, and Community Engagement
- Leadership
- Teaching and Learning; Curriculum and Assessments
- Policy Governance, Procedures, Administration
- Adult Learning and Recruitment

Multi-Tiered System of Supports (MTSS) Framework: Academic Supports

Academic Supports: Response to Intervention

What is Academic Response to Intervention (RTI)?

Response to Intervention (RTI) is a multi-tier approach to the early identification and support of students with learning and behavior needs. The RTI process begins with high-quality instruction and universal screening of all children in the general education classroom. Struggling learners are provided with interventions at increasing levels of intensity to accelerate their rate of learning. [RTI Action Network](#)

[Response to Intervention and MTSS](#)

Four Essential Components of RTI

1. High-quality, evidence-based differentiated classroom instruction for all students
2. Ongoing student assessment: universal screening and progress monitoring for all students to measure progress toward standard mastery and identify students in need of additional support
3. A multi-tier approach that incorporates increasing intensities of instruction offering interventions matched to student needs.
4. Parent involvement and communication of student progress, goals, and interventions

Academic Universals

Frequency of Assessment	AP/IB May EOC exam, official IB assessments completed during year 1 or year 2, including simulated/practice assessments (IA's/EA's, AP exam components)	Quarterly progress monitoring of identified students	Twice a month minimum progress monitoring of all participating students.

Academic Data and Assessment Systems

Student Benchmarks

Galileo: Galileo benchmarks measure progress toward mastery of grade/content standards in ELA, Math, and Science for students (K-12).

- Achievement Level: predicts end of year performance on standardized state assessments
- Growth: measures progress between first and last assessment

Placement Assessments:

- Imagine Language and Literacy
- Imagine Math

Classroom Assessment:

- Common Formative Assessments

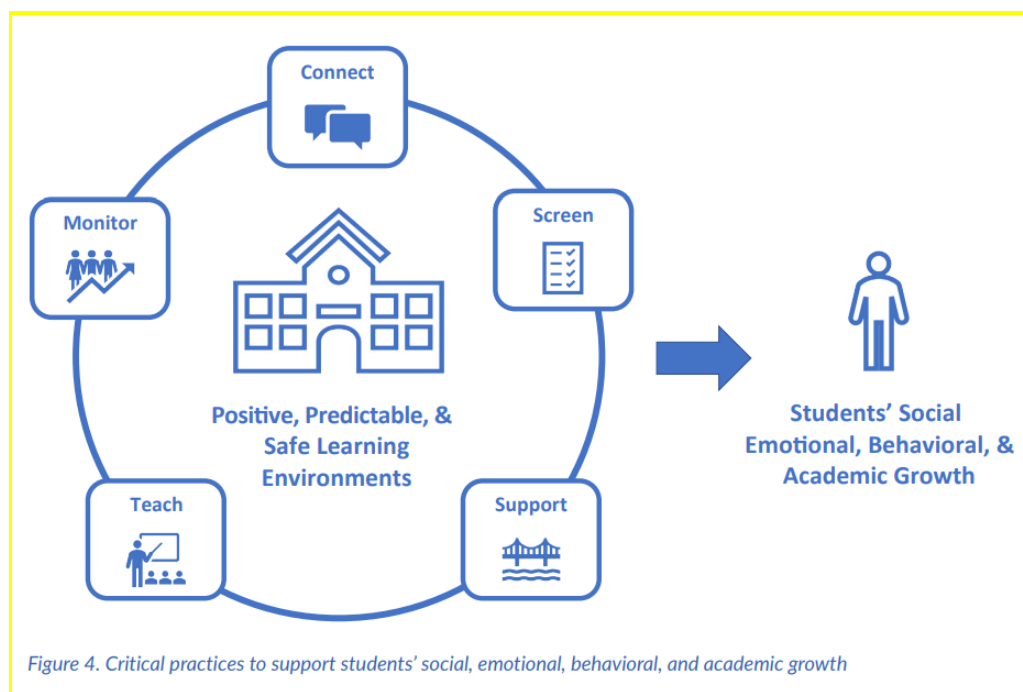

Career/College Readiness:

- ACT
- ASVAB

Multi-Tiered System of Supports (MTSS) Framework: Behavioral Supports: PBIS

What is PBIS?

Positive Behavioral Interventions and Supports (PBIS) is an evidence-based three-tiered framework to improve and integrate all of the data, systems, and practices affecting student outcomes every day. PBIS creates schools where all students succeed. (Center for PBIS)

[The Center for PBIS](#) recommends a “back to basics” approach to address the significant disruptions to students’ educational access and experiences. The PBIS framework has been historically focused on systems to promote appropriate behavior in schools on all aspects of student success, including academic achievement. The Center for PBIS resources increasingly include wider comprehensive MTSS resources. At FFSD, PBIS generally refers to the behavioral components of a MTSS framework, which has been implemented in the district for many years. The Ferguson-Florissant School District recognizes the value of these evidence-based and culturally relevant practice for equitable and high impact:

1. Connect: Enhance relationships among educators, students, and families
2. Screen: Identify students who need additional support
3. Support: Establish a safe environment
4. Teach: Effectively teach, prompt and reinforce expectations and social emotional/behavioral skills
5. Monitor: Monitor implementation to enhance supports for all students and those who require more support

[Center for PBIS: "A District Guide for Returning to School"](#)

McCluer North Behavior Matrix

	Classroom	Restroom	Hallway	Outdoors	Cafeteria	Bus	Gym
I will be... Safe	Advocate needs. Cell phones are not in use. Use materials appropriately. Keep hands feet objects to self	Use property respectfully. Keep hands feet objects to self	Walk on the right side. Phones and headphones are not visible. Respond to negative actions in a calm manner. Keep hands feet objects to self	Use equipment safely. Follow game rules. Tag and chasing are prohibited. Keep hands feet objects to self	Keep hands feet objects to self Follow directions	Support the driver by staying in your seat. Using a lowered tone to speak to my neighbor. Keep hands feet objects to self Sit in assigned seat	Use appropriate language. Speak at an appropriate voice level for the activity. Respond to negative actions in a calm manner. Keep hands feet objects to self
I will... Persevere	Continue to work through a difficult task. Ask for help when I'm struggling.	Be patient as I wait my turn.	Be patient through a crowded hallway. I will use self control.	Try something new/ challenging. Be positive about uncomfortable tasks.	Patiently wait for food order.	Show patience during ride or delays. Stay calm during bumpy rides.	Continue to work through a difficult task/activity.
I will be... Responsible	Have necessary classroom materials. Be active in learning and participating. Complete assignments on time.	Use time wisely. Report problems to an adult. Clean up after yourself. Wash your hands	Respect peoples' personal space at lockers. Arrive on time. Keep hallways clean Report concerns to an adult	Respect other people's physical space. Respect property.	Stand in a single line when getting food. Say please & thank you. Clean up your mess. Be neat when you eat. Stay in assigned seat	Use appropriate language. Speak at a level one (or whisper). Don't distract the driver with loud noises or motion. Respond to negative actions calmly.	Respect property.
I will be... Cooperative	Follow adult requests or directions. Listen to others' ideas.	Report problems to an adult. Clean up after myself.	Have a pass when leaving class. Talk while you walk. Use time wisely.	Use identified entrances. Dispose of trash in appropriate areas.	Keep food & drink in the cafeteria. Stand in a single line when getting food. Raise your hand and wait for permission to dump tray Follow seating procedures	Do not eat or drink on the bus. Use appropriate language. Listen to the driver for directions.	Use appropriate voice level for activity. Return equipment to the appropriate place.
I will be... Kind	Build relationships with peers. Get involved in school activities.	Wait my turn. Inform the appropriate person of restroom concerns.	Be courteous of others' space. Greet and acknowledge others.	Include others Share equipment.	Thank the cafeteria staff for their service. Welcome others to the table/area where I am sitting. Promote positive relationships.	Greet and thank my driver. Greet my seat partner.	Show good sportsmanship. Include others in activities.

Acknowledgement Systems for Reinforcement and Rewards

Acknowledgement puts the **positive** in Positive Behavioral Intervention and Supports (PBIS). It shifts the focus from negatively responding to unwanted behaviors with discipline, to positively responding to desired behaviors with praise or even rewards. An acknowledgement system provides immediate, intermittent, and/or long-term rewards to any student or group who displays desired school-wide expectations for behavior. Staff use the school-wide and classroom expectations as the common language of acknowledging behaviors. This not only provides consistency among staff, but also continuity for students as they progress throughout the school as well as through the grades. Often staff name the umbrella expectation as well as the specific behavior when they acknowledge student behavior positively. Each school has a unique Acknowledgement System.

Types of Acknowledgement

- ❖ Quarterly
- ❖ Monthly
- ❖ Bi-Weekly

Who Can Be Acknowledged for Meeting Expectations?

- ❖ Individual
- ❖ Group
- ❖ School-wide
- ❖ Faculty/Staff

Examples

- ❖ Positive Specific Verbal Praise in a ratio of 4:1 (positive to negative/non-specific)
- ❖ School-wide public feedback (announcements/assemblies/bulletin boards)
- ❖ Celebrations and Award Ceremonies
- ❖ Classroom Rewards to reward an entire class
- ❖ Visual Feedback in classrooms or common areas
- ❖ Early dismissals to lunch
- ❖ Attendance rewards
- ❖ Raffles
- ❖ Field Trips
- ❖ Color I.D's
- ❖ Free entry to sporting events

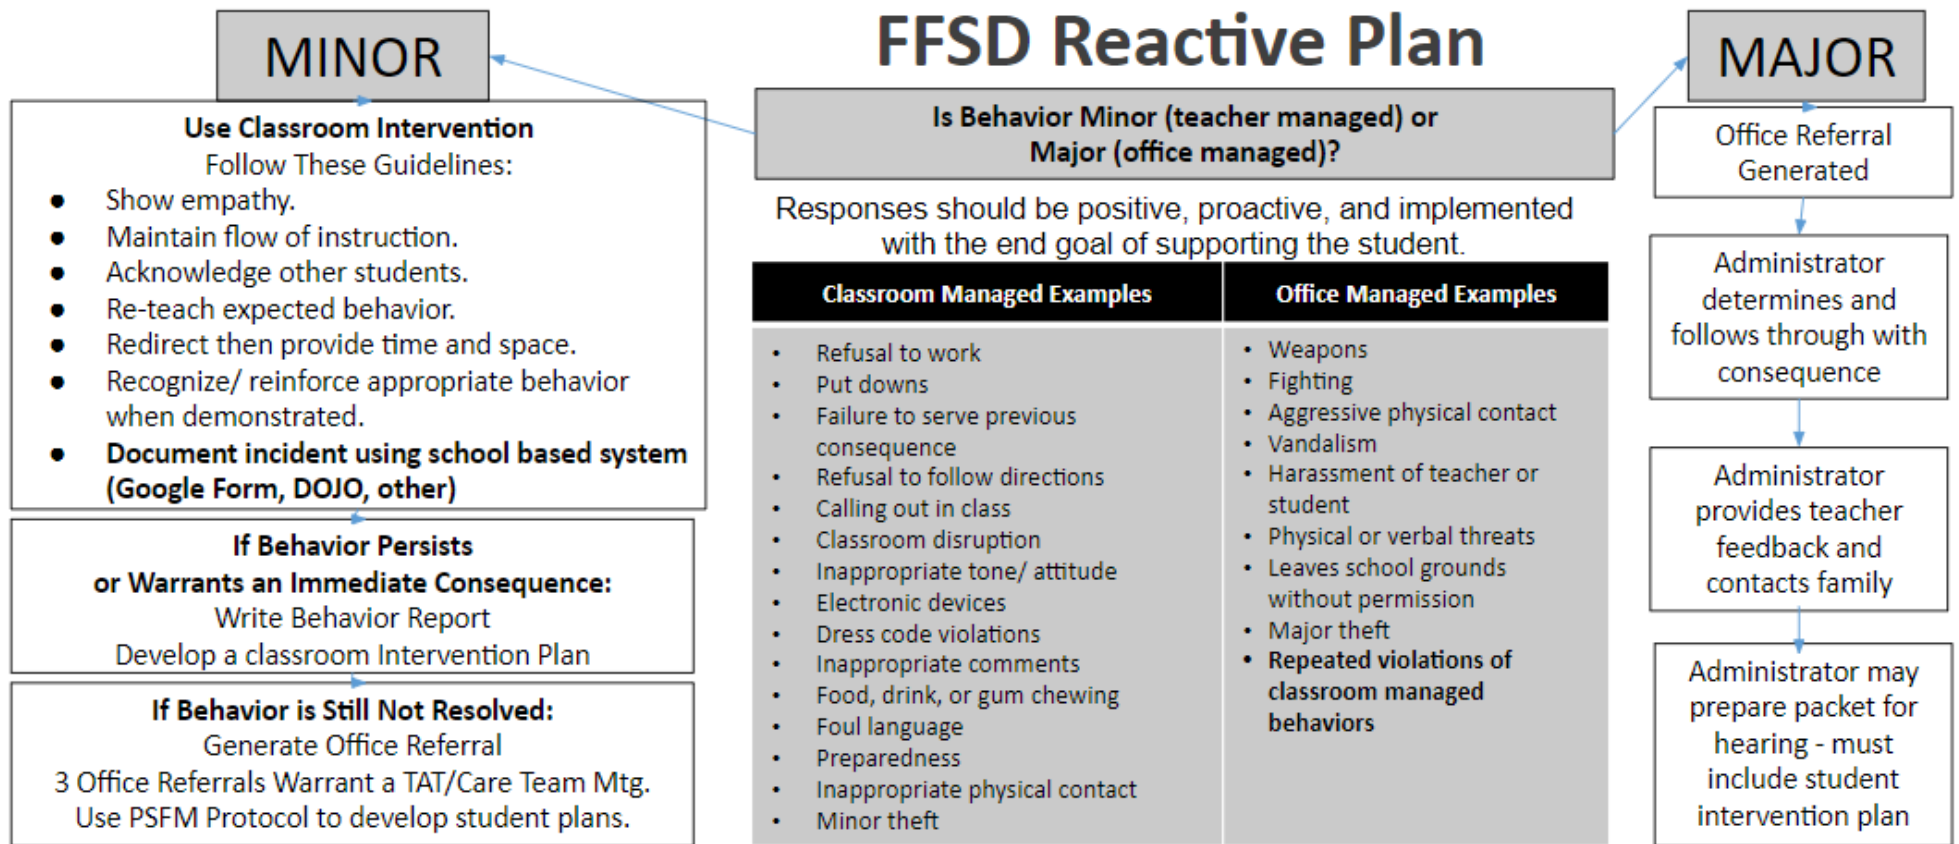

Teaching, Reteaching & Reinforcing Expectations

Procedures for Teaching	
<ul style="list-style-type: none"> ● Schedule a day during orientation week staff will be informed in detail of the MTSS plan. ● Follow the pacing guide and curriculum for Math, ELA, Writing, Science and Second Step/7 Mindsets ● During the first 2 weeks of school, explicitly teach students the district, building, and classroom expectations. ● Behavior Expectation Matrix Posters in the Classroom ● Reactive Plan Posters in the Classroom ● Anchor charts for academic and social skills ● Weekly Memo -Testing Schedules, Meetings, Screeners, Second Step Goals and PBIS talking points. ● Keep faculty updated during building staff meetings and professional development ● Teachers explicitly teach and practice expectations in the classroom and common areas 	
Procedures for Re-Teaching	
<ul style="list-style-type: none"> ● Behavior Expectation Posters in each setting ● Practicing routines and procedures regularly ● After every 5 weeks, recap Social-Emotional lesson ● After every break (at least one week), reteach PBIS expectations lessons ● Teach Talking Points for daily lessons on the behavior expectations during advisory or morning meeting ● Teach the Second Step or 7 Mindset Curriculum 	
Procedures for Reinforcing	
<ul style="list-style-type: none"> ● Shout Outs on announcements ● Shout Outs on the Shout Out Board ● Recognize students with prizes who complete tasks ● Dojo points ● Incentive tickets 	<ul style="list-style-type: none"> ● Raffles ● Certificates ● Assembly recognition ● Recognition Boards ● Colored Id Cards\ ● Earn extra incentives

Reactive Plan for Minor and Major Behaviors

A Reactive Plan outlines the flow-chart of adult responses to minor and major behaviors. We differentiate between Classroom-Managed and Office-Managed Behaviors and follow a Continuum of Consequences for each. A teacher may address minor inappropriate behaviors without writing an office referral, which elevates the incident to the attention of the school administrator. An administrator or dean addresses more serious discipline incidents. Administrators reference the Student Expectations Code when making decisions about consequences. Teachers and administrators are encouraged to utilize Restorative Practices, rather than a punitive approach. The commitment to teaching, reteaching and reinforcing universal student expectations is rooted in the responsibility of schools to maintain a safe and orderly learning environment. There are consequences for behavior that disrupts that environment laid out in the SEC.

FFSD Reactive Plan

Verbal Reminders and Cues, Restoration Conversation, Reteaching, Student Reflection Sheet, Student Self-Correction, Parent Contact, Buddy Room, Alternate Seating (Safe Seat, Peace Corner, etc.), Principal or Counselor Meeting

If Behavior is a Crisis (AOC): Contact the office for assistance. Move other students to safety. Follow Crisis Plan to interrupt the Acting Out Cycle. Principal will conference with student (and teacher if applicable) to determine course of action or consequence (which will be communicated with classroom teacher).

Behavioral Interventions

Evidence-based academic interventions are provided throughout the district, however not every intervention listed here is available at every grade span or school. Student data is used to identify students who may need targeted interventions. School MTSS Comprehensive Guides contain information as to the specific Tier 2 and Tier 3 academic interventions and strategies utilized to support students at each school. These are some of the behavioral interventions in place at schools.

Research-based Behavioral Interventions		
Low Level Strategies (Available Universally)	Tier 2: Targeted (Teach, Reinforce, Feedback)	Tier 3: Intensive/Individualized (T2 with increasing intensity)
Alternatives To Suspension Behavior Specific Praise Effective Teaching Practices Individual & Visual Schedules Mentors club Non-Verbal Cues & Signals Peer Tutoring Reward System Self Monitoring Sensory Tools	Behavior Contract Check In Check Out (CICO) Counselor Referral Individual & Visual Schedules Mentoring Peer Tutoring Reteaching Clinics Self Monitoring Sensory Tools Social Stories Social Skills Group: <ul style="list-style-type: none"> ● Teach Conflict Resolution ● Teach Coping Skills ● Teach Organizational Skills ● Teach Relationship Skills ● Teach Relaxation Techniques ● Teach Social Skills 	Behavior Intervention Plan (BIP) Collaboration With Student's Physician And/Or Mental Health Provider External Partners (for example) <ul style="list-style-type: none"> ● Great Circle

Student Expectations Code (SEC)

The Ferguson-Florissant School District has created the [Student Expectation Code](#) to assure all stakeholders have direct access to the guiding principles and consistent procedures applicable to the administration of student discipline within all schools. All children have different needs, and our mission is to ensure that all children succeed. Towards that end, this document serves as a lens through which to view how the district will utilize preventative and restorative approaches to support students equitably even when they may make choices that negatively impact themselves or others. In order to promote equitable outcomes for students, this document identifies areas where interventions to support students in preventing negative behaviors are included or required and defines ranges and maximums for consequential actions. The Ferguson-Florissant School District intends to make plain the thought and care used to assure administrative procedures and disciplinary consequences are learning experiences for student growth and to ensure that our families are informed partners throughout the process of supporting students in being at their very best each and every day.

Suspension Practices

FFSD works to decrease the number of out of school suspensions through implementation of an MTSS framework that provides tiered behavioral and SEL supports to students aimed to prevent major infractions. The Student Expectations code lays out the circumstances under which suspension is an appropriate consequence for a Level 4 or Level 5 infraction. Families are encouraged to become familiar with the SEC and understand their students' rights and responsibilities. Whenever possible, school principals try to provide effective alternatives to suspension. Alternatives to suspension vary by grade span and school.

Alternatives to Suspension (examples)

- Restorative Room (ISS)
- Reteaching of expectations
- Restorative conference
- Parent supervision at school
- Counseling
- Community service
- School service (for example, assisting with clean-up or special projects)
- Behavior monitoring
- Restitution
- Problem solving or behavior contract
- Alternative programming
- Loss of privileges
- Time out/Buddy Room
- Mentoring (with a teacher, counselor, or other staff member before or after school)
- Behavioral contracts (BIP)
- Referral to community mental health services
- Loss of bus privileges for bus-related incident

School-Based Teams for PBIS Tiered Systems

Teams of educators meet to develop and monitor PBIS practices in each school. Highly effective teams have the following characteristics. The MTSS District Leadership Team seeks to support these school-based teams by providing district-wide direction, training, and coaching.

Members: The Tiered Fidelity Inventory (TFI) recommends that the members of the team include a systems coordinator, a school administrator, a family member, and individuals able to provide (a) applied behavioral expertise, (b) coaching expertise, (c) knowledge of student academic and behavior patterns, (d) knowledge about the operations of the school across grade levels and programs, and (e) student representation for high schools

Role	Responsibility
Principal(s)	Data support
Selt Chair	Systems Coordinator
Classroom Teachers	Tier 1, 2, and 3 Interventions
SSD Teachers/ staff	Tier 1, 2, and 3 Interventions
Social Worker	Social/Emotional experts
Counselor	Social/Emotional experts
Behavior Interventionist	Social/Emotional experts

Meetings: School teams meet monthly and follow an agenda, and keep minutes that are available to all staff. Meetings are the third Tuesday of each month. Meetings are typically held from 3:30 p.m. to 4:30 p.m.

Systems Development: Teams develops and monitor systems for behavioral expectations, teaching expectations, classroom procedures, effective use of FFSD PBIS Matrix and procedures for addressing office-managed and classroom managed behaviors, alignment of school systems with the [FFSD Student Expectations Code](#), building-based Professional Development (PD), and acknowledgement and rewards

Data Driven Decision Making: Teams participate in data-driven decision making monthly: analyze and respond to formal and informal discipline data, attendance data, CARE Team referrals, and other data sources as appropriate. Data is used to identify the three A's (Academics, Attendance, and Attitude). The data helps members identify incentives and areas of opportunity for growth.

Stakeholder Engagement: Teams develop opportunities for building and community stakeholder engagement: shares practices, procedures, and data with the entire staff and encourages the community (staff, families, and partners) to be involved and provide feedback. Selt members provide information regarding meetings and incentives via email and morning announcements. Meeting minutes are shared via google docs each month to staff. Incentive rewards are shared on social media. Students receive emails and announcements to remind them of any upcoming incentives and the criteria for such. Parents receive emails with information regarding incentives and criteria for the year. The Selt team recognizes the importance of parent involvement and is currently working on the revamp of PTO at our school.

Evaluate Effectiveness: Teams evaluate the effectiveness of PBIS systems at least annually . Systems reevaluations are performed quarterly. The SELT reviews data to determine the efficiency of the current systems.

Behavioral Data/Assessment Systems

BIG 5 + 1: Teams analyze school behavior: average referrals per day, average referrals per month, top referral incidents, top referral locations, top times of day incidents occur, out of school suspension incidents/days.

Referrals: Office referrals are tracked and monitored to identify (1) trends in student behavior and (2) individual students who would benefit from targeted interventions. When students struggle to meet behavioral expectations, adults must support them in learning appropriate behaviors and addressing root causes.

School-based Internal Behavior Systems (pre-referral): Schools have systems for tracking behaviors, especially classroom-managed behavior, prior to the need for an office referral that is entered in the Student Information System (Tyler SIS K-12). Students receive interventions in response to these pre-referral behaviors. Building Leadership Teams and educator teams monitor pre-referral data.

School-based Behavior Progress Monitoring: Schools have systems in place to progress monitor interventions that support students who have demonstrated behavioral challenges. Progress monitoring information is collected and analyzed, usually every 6-8 weeks. Progress monitoring is often a process implemented by Care Teams, but may be carried out by any educator who is supporting a student individually or in a group setting.

Multi-Tiered System of Supports (MTSS) Framework: Social Emotional Learning (SEL) and Supports

Social Emotional Learning (SEL)

What is Social Emotional Learning?

Social Emotional Learning (SEL) concepts provide an extra dimension to education, focusing on improving cooperation, communication, and decision-making. In a world where emotional intelligence is critical for lifelong happiness, successful careers, and healthier relationships, SEL gives students a framework for developing these skills.

Social Emotional Learning through CASEL Alignment

Ferguson-Florissant School District’s SEL core curriculum, tiered resources, surveys, screeners, and MTSS student data management system are aligned to the CASEL framework. Additionally, promoting social emotional learning is a key element in building a just, equitable, and anti-racist school district.

Social Emotional Core Curriculum

What is our approach to Social and Emotional Learning ?

- A focus on the following competencies: (1) self-awareness, (2) self-management, (3) social awareness, (4) relationship skills, and (5) responsible decision making.
- Skills are reinforced, extended, and applied to age-appropriate situations at each grade level.
- Schools strive to establish classroom and school routines to offer students the opportunity to practice and receive feedback and reinforcement on their use of the skills
- School leaders act to shape a school culture that will provide a safe place for students to practice skills and where adults model the skills

7 MINDSETS

The social-emotional learning curriculum for grades 6-12 approved by the district is 7 Mindsets. The curriculum follows Blooms Taxonomy progression and aligns directly to the development of 10 SEL competencies: CASEL’s 5 plus resilience, growth mindset, empathy, sense of purpose and hope.

- **Expectations:** Teachers will teach one 30-45 minute lesson per week from the 7 Mindset curriculum and reinforce the concepts throughout the week
- **Optional:** Teachers may provide extension activities from the 7 Mindsets curriculum throughout the week
- **School-wide Reinforcement:** 7 Mindsets SEL concepts and language are used throughout the building, including morning announcements
- **Additional Resources:** Equity lessons, skill-specific contents, educator wellness, and other SEL resources available through the 7 Mindsets platform are used by some schools

Social Emotional Learning and Restorative Practices

What are Restorative Practices?

Restorative practices is an emerging social science that studies how to strengthen relationships between individuals as well as develop social connections within communities. In schools, restorative practices help to create a trusting environment by giving both students and adults an opportunity to make positive choices and interact respectfully in the classroom and throughout the school. ([CASEL Guide to Schoolwide SEL: Restorative Practice and SEL Alignment](#))

Restorative Practices (RP) include both proactive and responsive practices to build community and restore relationships when harm has occurred.

Proactive practices: practices that proactively build healthy relationships and develop community

- Affective language (e.g., “I statements,” empathetic listening, affective questions, nonverbal affirmation)
- Small impromptu conversations or “restorative chats”
- Community-building circles (e.g., talking circles)

Responsive practices: practices that respond to conflict and wrongdoing with the goal of repairing harm, rebuilding relationships, and restoring community. Responsive practices involve both the person who caused harm and those who are impacted.

- Responsive conversations or restorative conferences
- Responsive circles (e.g. restorative problem-solving, peace circles, and reintegration circles)
- Peer-based conferences, peer juries, justice panels

Role of School Counselors in SEL

Who are School Counselors?

School Counselors work within schools to fully implement a comprehensive school counseling program that supports the academic, career, and social/emotional development of all students through the delivery of counseling curriculum, individual student planning, and responsive services. The program is managed and evaluated through system support activities that also support the on-going mission of the school.

Effective comprehensive school counseling programs are vital to the school climate and a critical element in the development of success ready students. Comprehensive school counseling programs have a positive impact on students, parents, schools and communities.

School Counseling Curriculum Description: lessons presented to help students attain the desired Grade Level Expectations (GLEs) in the areas of social/emotional, academic and career development. The school counseling curriculum is systematically presented by school counselors in collaboration with teachers through K-12 classroom lessons or other learning activities.

Social Work Services: Social Emotional Tiered Supports

Who are School Social Workers?

School Social Workers provide a focused reach to support all students specifically in areas of social-emotional learning and mental health needs, and are uniquely trained to integrate the school, community, and family context into interventions and resource referrals. School social work interventions reduce barriers to learning enabling students to be physically, mentally, and emotionally present and ready to learn in the classrooms ([School Social Workers Association of America](#)). Ferguson-Florissant School District (FFSD) School Social Workers serve as the link between students, families, the community, and the school.

Multi-Tiered System of Supports (MTSS)

In an effort to improve academic and behavioral outcomes, FFSD School Social Workers partner with staff within the LEA to systematically address concerns from a context that is preventative, yet team and data-driven. Through a tiered model of support, school social workers provide a multitude of direct and indirect intervention/support services with the goal of increasing student outcomes on an individual and district-wide level. Tiered interventions align and support outcomes within the school based social work practice model. Those student directed outcomes include evidence-based practices in mental health, promoting a positive school culture/climate that is conducive to student learning, and maximizing access to community and school based services for students district-wide.

Examples of MTSS School Social Work Duties/Interventions

Tier 1: Universal Prevention Services (All Students)

Conduct School-Wide needs and risk assessment · review school-wide data collection · Collaboration and consultation with teachers and administrators · Crisis intervention and prevention · Provide professional development for school staff and families · Student and Family engagement activities · Leadership and accountability for systems wide mental health initiatives · Education policy advocacy · systems of care coordination · McKinney Vento · Foster care · Foster community partnerships · Support current Universal services · Development of new Universal programs/services · Available to provide support to all students (e.g. resources, crisis counseling, conflict mediation) · partner with Home-School-Community Liaison · partner with Parent education & support programs · Provide In-service for students, parents, and school staff

Tier 2: Selective Early Intervention Services

Classroom and small group practices to address Social Emotional Learning · Behavioral and mental health needs · Group counseling and skill building · Attendance · Engagement · Conduct functional assessments for individual case management planning · Create self-management tools for students · Support Check-In/Check-Out (CICO) program · Small group instruction using evidence-based interventions (e.g. social competence, self-regulation, etc.) · Teacher/classroom consultation · Other Universal supports

Tier 3: Intensive individualized support (Wrap-around/Case Management Services)

Family support · Implementation and review of Functional Behavioral Assessments · Behavioral Intervention Plans · IEP participation · Intensive case management that may include: social assessments, development of individual treatment plans, referrals to services, student monitoring and collaboration with interdisciplinary teams.

Social Emotional Tiered Supports: External Partnerships

<i>External Partner</i>	<i>Tier 1</i>	<i>Tier 2</i>	<i>Tier 3</i>
Behavioral Health Response (BHR)	Trauma Informed Care, Emotional Regulation presentations, Staff & Parent presentations		
Better Family Life		School Based Therapy - Services include individual, family and group psychotherapy	School Based Therapy - Services include individual, family and group psychotherapy
BJC	Consultation and staff presentations		
Center for Behavioral Health			Comprehensive psychological assessment and evaluation services
CHADS	Signs of Suicide Presentations (Gr. 5-9) Mental Health Presentations		
CHADS Family Support Counseling			Family Support Counseling
CHADS Mentoring			Mentoring
ConnectED (formerly NCADA)	Resiliency-skill curricula; peer programming

SEL Data and Assessment Systems

Student Screeners and Surveys

DESSA: The DESSA is a nationally standardized, strength-based behavior rating scale that assesses students' social and emotional competence with editions that support students K-12. It has been used by districts across the country to support social and emotional learning. It is aligned to CASEL standards. We use the DESSA Mini to identify students who may need support. We use the DESSA Comprehensive Screener to drill down into exactly what would benefit each student who demonstrates a need for additional support. A team of professionals individualize support in a Care Team process. [More Information about the DESSA](#)

SECA: The SECA is a research-based, student-facing survey that measures self-reported social and emotional competencies of students in grades 5-12. Students respond to questions that measure their confidence in 8 social-emotional domains. We use the SECA result to identify areas we can address school-wide to help all students gain confidence in certain competencies. We can also support smaller groups of students in Tier 2 interventions. [More information about the SECA and SEL screeners](#)

Both DESSA and SECA are aligned to the CASEL Standards:

1. Self-awareness of strengths and weaknesses
2. Self-awareness of emotions
3. Self-management of emotions
4. Self-management of goals
5. Self-management of school work
6. Relationship skills
7. Social awareness
8. Responsible decision-making

[More information about the Casel SEL Framework](#)

Culture and Climate Surveys: The School Climate Surveys are a set of four multidimensional surveys to measure student, teacher, administrator, faculty, and family perceptions of school climate: elementary, middle/high, school personnel, and family. The surveys are brief, reliable, and valid for assessing perceived school climate among students in Grades 3-12. We use climate surveys to determine how members of our FFSD community view the culture and climate of our schools. This information helps us plan for continuous improvement. [More information about School Climate Surveys](#)

Tiered Supports for Attendance/Engagement			
	General Strategies	Specific Actions	
Tier 1	Family Engagement	Clear communications about expectations Clarity on when NOT to send a child to school Outreach when students are absent	Education on importance of attendance/engagement Emphasize home/school partnership
	Prevent: Remove Barriers	Transportation Address homelessness Wellness checks: health and SEL	Free lunch/breakfast Alternatives to suspension Access to technology/WiFi as needed
	Teach Expectations/ Relevance	Clear communication about expectations Clarity on when it's not safe to come to school	Education on importance of attendance/engagement
	Reinforce/Reward	Focus on engagement Recognition for high engagement and improvement	Positive reinforcement for attending
	Relationships/ Connections	Community building in class and building Teacher outreach when students are absent/ return Greeting students entering building and classroom Opportunities for student voice	Taking attendance in a caring manner Connection to 1+ adult in school Increased peer engagement
	Monitor Accurately	Follow attendance protocols Track access/work submission for remote learning	
Tier 2	Attendance Teams	Use absenteeism data to activate targeted supports Individualized attendance planning	Investigate reasons for absenteeism
	Targeted Intervention	Parent phone calls/meetings Address specific barriers to attendance/engagement Group support by similar reasons for absenteeism	Student mentoring re: attendance Priority participation in expanded learning (home/school)
	Relationships/ Reinforcement	Recognize attendance/engagement improvement Develop incentives with students	Identify "champions" for each student at level T2
Tier 3	Intensive Intervention	Intensive outreach to locate student and family and assess situation Coordinated case management: including child welfare, mental health, health, housing/homelessness and CPS (last resort)	

STUDENT RIGHTS AND RESPONSIBILITIES	
Students have the right to:	Students have the responsibility to:
To attend school in the district of residency or in accordance with one of the legally recognized exceptions, and receive a free and appropriate public education from age 7 to 21, as provided by law.	All enrolled students will attend school daily, regularly, and on time, perform assignments, strive to do the highest quality work possible, and be prepared to learn
To expect that school will be a safe, orderly, and purposeful place for all students to obtain an education and to be treated equitably	To be aware of all rules and expectations regulating student's behavior and conduct themselves following these guidelines
To be considered as an individual and treated courteously, equitably, and civilly by other students and school staff	To consider everyone in the school community and to treat others in the manner that one would want to be treated
To express one's opinions verbally or in writing	To express opinions and ideas civilly so as not to offend, slander, or restrict the right and privileges of others
To dress in such a way as to express one's personality following the dress code	To dress appropriately following the dress code so as not to endanger physical health, safety, limit participation in school activities, or be unduly distracting while expressing one's personality
To be afforded equal and appropriate educational opportunities.	To be aware of available educational programs to use and develop one's capabilities to their maximum
To take part in all school activities on an equal basis regardless of actual or perceived race, ethnicity, color, ancestry, national origin, religion, immigration status, sex, gender, gender identity, gender expression, sexual orientation, family/parental status, marital status, age, physical or mental disability, poverty socio-economic status, and language	To work to the best of one's ability in all academic and extracurricular activities, as well as being cooperative and supportive of others
To have access to relevant and objective information concerning drug and alcohol abuse, as well as access to individuals or agencies capable of providing direct assistance to students with serious personal problems	To be aware of the information and services and to seek help in dealing with personal problems when appropriate
To be protected from intimidation, harassment, or discrimination based on actual or perceived race, ethnicity, color, ancestry, national origin, religion, immigration status, sex, gender, gender identity, gender expression, sexual orientation, family/parental status, marital status, age, physical or mental disability, poverty socio-economic status, and language by employees or students on school property or at a school-sponsored event, function or activity	To be considerate of one another and treat others equitably following the Student Expectation Code. To conduct themselves in a manner that fosters an environment free from intimidation, harassment, or discrimination. To report and encourage others, to report any incidents of intimidation, harassment or discrimination

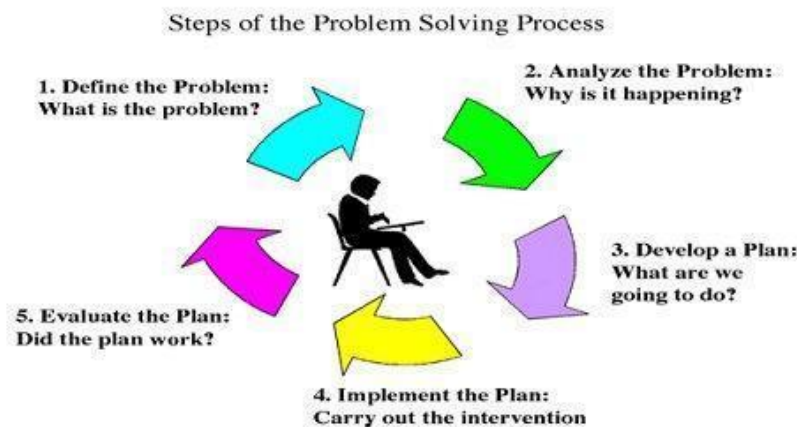

Care Team Individualized Intervention Process

Care Team

The Care Team is a group of professional staff representing a variety of disciplines which may include general education, guidance and counseling, administration, school health/nursing, special education, speech/language pathology, school social work, school psychology and parents that work together to support a student in areas of academic, social emotional and behavioral needs. This team uses current information to develop and recommend research-based interventions to support the student.

Process

The Care Team is designed to support teachers and staff with suggestions of research based interventions to support students who are struggling with Tier 1 instruction. Students who are referred to the Care Team have not shown the expected academic, behavioral or social-emotional growth in spite of having received support from the classroom teacher. Teachers should first attempt to eliminate concerns by implementing strategies in the classroom prior to making a referral to the Care Team. Once the Care Team referral is made, the counselor (as facilitator) will gather some basic information about the student and schedule the meeting. During the meeting, the Care Team members will discuss the strengths and opportunities for growth for the student and develop a plan to support the student. The team will schedule a follow-up meeting in 4-6 weeks to review progress.

Care Team Procedures

Each building has a Care Team with a designated day/time for Care Team meetings. The makeup of this team may look different at each building and based on the concern of the referring teacher. Mandatory team members include: referring teacher, general education teacher, school counselor and a building administrator. Some other members of the team might include: special education staff member, school psychologist, school/district social worker, school nurse, speech/language pathologist, ISL, student and/or parent.

Care Team Members and Roles

Team members should have designated roles to help the meeting run smoothly.

- Facilitator - The facilitator schedules the meeting and leads the discussion
- Time Keeper - This person keeps the meeting progressing. This is a very important role as many times, so much time is spent on the problem, that there isn't enough time to discuss the interventions.
- Recorder - This person keeps the notes of what is said and decided in the meeting.
- Support Team Members - Recommend interventions. Sometimes things are so clear to those who aren't directly involved in the situation.

Some members might fill multiple roles.

As the facilitator of this meeting, counselors should use the agenda/notes document to guide the meeting. During this meeting the team will review various information (problem/concern, interventions tried, goals to work toward and interventions to put in place as well as who is responsible for implementation, etc.) A follow up meeting will be scheduled at this time as well - Some of this can be filled in on the agenda/notes document before the meeting based on the information from the referral.

If there are speech/language concerns, the SLP should be invited. Based on the concern, you might invite a member of your SELT team or ISL. If possible, invite the previous year teacher as they might have some insight as to what worked for them. This is not always possible, especially at the secondary level.

Over the next 4-6 weeks, the interventions that were discussed during the meeting need to be implemented with fidelity. If it was decided that the student would receive one-on-one tutoring for 30 minutes, each day, then that is what would need to be done in order for the intervention to be considered implemented with fidelity.

At the following meeting, the team will review the data collected over the last 4-6 weeks and discuss how the student is doing. If the intervention is working, continue with this intervention and begin to discuss any other areas the student might need to improve and start the process over with this new intervention. If the intervention is not working, discuss fidelity and other options of what might work better. Schedule another follow up meeting.

Special Education and MTSS

The Ferguson-Florissant School District has developed an MTSS Framework which addresses goals related to Special Education programs in partnership with Special School District. Strong multi-tiered support for all students eliminates practices which have historically resulted in the over-identification of students with disabilities. By serving our students effectively in the general education setting, we are able to reduce special education referrals and improve student outcomes.

The objective is to reduce disproportionality in the identification of students with disabilities, decrease suspension rates of students with disabilities, and be an inclusive setting which increases access of students with disabilities to the general education setting (Least Restrictive Environment).

Students with disabilities, like all students, benefit from school-wide implementation of a multi-tiered system of support (MTSS). Most students with disabilities (95%) receive at least part of their instruction in general education, and 63% spend most of their time in general education (i.e., 80% or more of their time in general education). As a result, they benefit from the positive MTSS outcomes found in numerous studies, including sustained academic performance, reduced behavior problems, reduced inappropriate referrals to special education, and improved graduation rates.

When schools implement individualized education programs (IEPs) within a larger school-wide MTSS, students with disabilities are able to receive intensive intervention through data-based individualization at Tier 3 while ensuring access to aligned Tier 1 programming as well as Tier 2 intervention in other areas of identified need. Data collected through MTSS support IEP teams in developing and implementing the IEP [Sec. 300.320]. [Center on Multi-Tiered Systems of Support](#)

Key Terms:

SPED - Special education is specialized instruction targeted for the individual needs of students who have been identified as needing special education services as a result of a disability.

Individual Education Plan (IEP) - A written plan that describes the individual learning needs of a student with disabilities and the SPED services, supports, aids, accommodations, and modifications that will be provided to that student

Least Restrictive Environment (LRE) - The school setting (placement) which allows a child with a disability to be educated to the greatest extent possible with children who do not have disabilities

[Accommodation/Modification](#) - Accommodations / modifications are amendments to curriculum so barriers are effectively removed which prevent a student from demonstrating content mastery. This support allows a student to have equal access to learning.

Disproportionality in Special Education: unequal or out of proportion identification, placement, and discipline of students with disabilities. Disparities may exist in race, ethnicity, or gender.

Functional Behavior Assessment (FBA) - The process of gathering data about problem behaviors of students with disabilities. Information about when, where, and under what conditions the behaviors occur is included.

[Guide](#): How Does MTSS Support SPED?

Important Terms in MTSS

Baseline Data: Data that is collected before an intervention or program change begins

Care Team: Group of professional staff representing a variety of disciplines that work together to support a student in areas of academic, social emotional and behavioral needs. This team uses current information to develop and recommend research-based interventions to support the student.

Differentiated Instruction: Way a teacher responds to a variety of student needs in the classroom in Tier 1 Universal Core Instruction by modifying the content, process, or product

Evidence-based: Research-based programs, assessments, and strategies shown to have had positive outcomes on student achievement or behavior

Fidelity: Occurs when strategies, content, and systems are implemented in the way they were designed to be used

Interventions: Evidence-based instruction designed to improve student performance relative to specific, measurable goals in a targeted area of need

MTSS District Leadership Team: District team of representatives across all facets of academic, behavioral, and social emotional supports for students who work together to drive implementation of the MTSS framework throughout the district (PK-12).

Progress Monitoring: Ongoing assessment conducted more frequently to guide instruction, monitor progress, and evaluated effectiveness of instruction/interventions

Targeted Support: Additional evidence-based academic or behavioral support to ensure all students achieve success at school (help)

Tiers: Layers of support students receive. An MTSS Framework has three tiers, or layers, of support. All students receive Tier 1 Universals; some students receive Tier 2 targeted support, and a few students receive Tier 3 individualized intensive support.

Universal Screening: Assessments for all students focused on target academic skills or social emotional competencies that are highly predictive of student outcomes and can be used to identify students for additional support.
