

# FERGUSON-FLORISSANT SCHOOL DISTRICT

## School Counseling Department

### School Counseling Program

The School Counseling program is an integral piece of the overall educational process. School Counselors provide a comprehensive program that supports students' academic, personal, social/emotional and career development. Growth and learning are developmental; therefore, guidance must be developmental and sequential. The need for guidance begins with pre-school entrance and continues throughout life.

The Comprehensive School Counseling Program is a K-12 developmental program that is concerned with all students while recognizing the fact that individuals have needs that will continue to require special attention. As a result, the comprehensive guidance program is for all students and becomes developmental rather than crisis-oriented.

### What do High School Counselors Do?

High School Counselors work with students in acquiring the knowledge to help form the foundation for their next steps both educationally and occupationally. They assist students in developing realistic education and career plans based on a clear understanding of themselves, their needs, interests, skills, and the realities and possibilities of the worlds of education and work.
