

MEET THE COUNSELOR!

7th Grade Counselor

My name is Jacqueline Rivers and I'm excited to join FMS as your 7th Grade Counselor for 2022-2023 school year! This is my 7th year as a school counselor and I look forward to getting to know and work with you. This year we will be working on setting goals, and being intentional in everything we do.

My Education!

I received a Bachelor's Degree from Southeast Missouri State University in 2009. I then continued my education graduating from the University of Missouri-St. Louis with a Masters of School Counseling in 2016..

My Philosophy:

I focus on providing students the opportunity to learn necessary skills (social, emotional and academic) for a healthy development and academic success. I plan to provide my students and their families with unconditional positive regard as well as listening ears and a loving heart. I want to encourage students to become their best selves. Even though circumstances and our learning environment are sometimes unpredictable and uncontrollable, I believe all students are capable of greatness.
