

Welcome to Cross Keys Middle

Dear Parents and Students:

I am pleased to welcome you to Cross Keys Middle School this year. Our goal is to provide each child with excellent educational opportunities. We are committed to maintaining high academic expectations for students, and improving instruction through ongoing assessment and reflection.

We are asking that all parents constantly reinforce the importance of gaining a good education. As most of us know, without a strong education, opportunities will be lost and hopeful dreams will become real nightmares.

It is my hope that we will continue encouraging our children to become the best they can become, and that we instill within them, the concept that an education is their bridge to a brighter future. Along with education, there should be an atmosphere that is conducive for learning. Students should have a good Attitude, good Attendance, and always strive for high Academic Achievement.

The administration of Cross Middle School welcomes your input, and encourages you in taking an active role in our school, as we embark on an educational journey to challenge our students to “Dare to be Remarkable.”

Remember, only we can keep our children on the proper path to excellence.

I look forward to watching each and every student strive for excellence daily. I have no doubt about their ability to meet and conquer each and every challenge, as we assure that “100%” of their needs are met.

We look forward to a productive as well as rewarding year and appreciate your continued support!

Sincerely,

Eric Harris, Principal Ed.S
