Letter from Dr. Davis

Dear Ferguson-Florissant Families,

I am excited to welcome you back to in-person learning in the Ferguson-Florissant School District. We have missed seeing you learning and growing in our buildings. We know that nothing beats face to face instruction with students and teachers in the same physical classroom.

It is my hope that this handbook will serve as an important and user-friendly tool for all families navigating our return to in-person learning. In this handbook you will find much information about how we plan to address health, safety, and instructional delivery within each of our buildings.

While we have been planning for an eventual return for many months, there undoubtedly will be some bumps in the road. I appreciate your patience and support as we move forward together in-person and virtually. Please keep the lines of communication open with your child's teacher and principal, so we can address concerns as we enter this next phase of learning.

Onward together,

Dr. Joseph Davis
Superintendent

Letter from Building Principal

Dear Central Families and Caregivers,

You all have helped the first part of this school year be successful! Now, we are at the point where our whole school community is working very hard to begin in-person learning for many of our students. We remain committed to providing the best possible learning experience for all of our students, whether they are learning in person or virtually.

In the coming months as we engage in another new school experience together, please reach out to your child's teachers and I so that we can support you and your child. Thank you for your continued support of our school community. I look forward to many bright moments amidst the backdrop of **this** challenging year.

Sincerely,

Carnella Williams, Principal

Dr. Chris Ries - Director of Gifted (Probe) - cries@fergflor.org (314) 824-2422

Students' Return to Instruction:

The 2020-2021 school year began for all students PreK - 12 virtually on Monday, August 31, 2020. Upon the Board of Education's decision, we will begin the second phase of our 2020-2021 school year with some students returning to in-person learning and some students continuing to learn virtually.

Central will use the first few days of in-person instruction to serve as orientation for staff and students to build relationships and develop an understanding of in-person expectations for teaching and learning.

Prior to welcoming students back in person, our school will hold information sessions for students around health and safety practices. **Key topics will include:**

- Masks
- Physical distancing
- Hand washing & Hand Sanitizing
- bringing water bottles to school (no larger than 32 oz)
- Walking through the halls
- Breakfast and lunch
- Bathroom
- Classroom instruction
- Arrival and dismissal

We are excited to see students in person! Students in PreK-2 that chose the in-person option will be welcomed back to campus and our classrooms. Students that chose to remain virtual will continue their studies online.

School Hours:

The school day is from 9:20-4:10. Students may enter the building at 9:05 for breakfast, and proceed to their classrooms.

Arrival and Dismissal Procedures:

We will be using specific exterior doors to limit students crowding at any one entry. Car and Day Care van riders will enter through the side door nearest the gymnasium. Vehicles will enter the parking lot off of Wesley Ave. only, proceeding around the parking lot until you reach the dumpsters. At this point, students will exit the car and enter through door #3 (near the gym door). All cars will exit school grounds through the gate, onto Carson Rd. Pre-K students will enter through Door # 9, parking on the back parking lot of the school (old church) and walking up the walkway, crossing the alley to door #9 Pre-K parents should enter off of Clark St. Bus riders will enter the front of the building through Door #1. Walkers will enter through Door #14, the side door nearest the playground.

For dismissal all bus and van riders will dismiss out of Door #1 to their bus or van. PreK students and walkers will dismiss from their same arrival doors. Car riders will be dismissed from the gymnasium door off of the parking lot, entering from Wesley Ave., circling the parking lot. Maps will be sent home

before in-person learning begins.

It is important to remember:

- Families must drop students off outside of the building and are not allowed to walk their child inside.
- Drop-offs must be as brief as possible.
- Visitors are not allowed in the building. Exceptions can be made in case of emergencies.
- Staff members will be present to ensure students safely enter and exit the school.

Health and Safety Information:

Daily Health Screening

Daily screening of students by caregivers is required every day for in person learners prior to coming to school. Below is a checklist of symptoms that will help you decide to keep your child at home. If your child(ren) shows any of the symptoms, the student should remain at home. Expectations and protocols for daily screening will be communicated to families prior to the start of in person instruction, with regular reminders provided throughout the semester. Please plan to make this daily screening a part of your morning routine.

Ferguson-Florissant

Morning Routine:

Screen your child for symptoms so we can keep everyone healthy at school.

- No fever or chills
- No cough
- No shortness of breath or difficulty breathing
- No sore throat
- No headache
- No muscle aches
- No nausea, vomiting or diarrhea
- No new loss of taste or smell
- No runny nose or congestion
- No close contact with a person with COVID-19 in the last 14 days

Sick? Stay H♥me!

Source: Missouri Department of Elementary & Secondary Education

If your child is experiencing symptoms as noted above, please do not send them to school and call the school to alert them that they are staying home. We encourage you to reach out to your doctor prior to returning to school. If you have any health questions or concerns, please reach out to your school nurse.

If Symptoms Develop While at School

It is the goal of the health services department to provide safety and support to all Ferguson-Florissant School District Students and Staff. Nurses and Clinic Aides have been trained on the procedures that should be followed if a student or staff should become ill while at school. In addition to our regular health office, our building has a designated isolation room where individuals who may be experiencing Covid-19 symptoms may rest while waiting to be picked up. It is important that students experiencing COVID-19 symptoms be picked up immediately. Please be sure that your contact information is up to date so that we can provide the best care and highest level of safety to our Central Elementary family.

Students or staff who develop symptoms suggestive of COVID-19 or those with a positive response to the questionnaire during the school day will be assessed by the school nurse, with the district nurse available for consultation, as needed.

[Following assessment by the school nurse](#), any students or staff with a temperature of 100.0°F (37.78°C) or higher, signs of illness, and/or a positive response to the screening questionnaire will be directed to a dedicated isolation area, where students will be supervised prior to being picked up or otherwise sent home. Please call the main office when you arrive if you are coming to pick up your child and remain in your vehicle. An adult will escort your child to your car.

[Health Room Guidelines for Teachers](#) - this document will be used to support staff with the processes and procedures for sending students to the nurse.

Masks

Masks are **required** to be worn at all times. If a student or staff forgets their mask or does not have a mask, a disposable mask will be provided.

Students are required to bring their own mask(s) from home. If possible, sending multiple masks with your child is recommended. The most effective masks are made with at least 2 layers of fabric which cover their nose and mouth without large gaps and include ear loops or ties for adjustments. Please note, the **following types of masks are not allowed** as they are less effective in blocking respiratory particles:

- Bandanas and gaiters
- Masks with a breathing valve or “button” vent

If a student forgets their mask or does not have a mask, a disposable mask will be provided as needed. Masks will be available in classrooms, at the main office, and in the nurse’s office. All masks should be changed if they become wet or soiled, dropped on the floor, or otherwise contaminated. Students will be taught and reminded not to touch the front or inside of the mask and to use the side loops to put on and take off the masks. Disposable masks will be thrown in the garbage; reusable masks will be placed in a plastic storage bag and brought home to be washed.

Hand Washing

All who enter the building must wash their hands or use hand sanitizer. In addition to the bathroom, all learning spaces are equipped with a stand alone hand sanitizers. Signage and frequent reminders will be given so that students are encouraged to wash their hands and/or use hand sanitizer frequently

Bathrooms

All students will wear their masks while using the bathroom, and wash their hands and/or use hand sanitizer after bathroom use.

Signage will be in place to maintain six feet of social distancing outside of the bathrooms, and to ensure handwashing and/or sanitizer usage.

Our custodial staff will disinfect often with full sanitization.

Hallway Movement

Hallway movement will be limited whenever possible. Students will be spaced with physical distancing while traveling the hallways. All students should maintain physical distancing.

Playgrounds, Green Spaces and Recreational Areas:

Outdoor spaces will be used as much as possible, weather permitting. Adults will be present to support small groups and their physical distancing during both learning and play.

School Nutrition

All students have the opportunity to receive school meals in a safe and comfortable environment so that they are ready to succeed in academic and social activities. The district will continue the healthy school nutrition program our families rely on to both in school students and virtual learners.

If you are an in-person learner, students will be supervised to wash hands before and after eating all meals. Students will eat lunch with their classroom cohort in their classrooms, cafeteria or outside. Proper sanitation protocols (hand washing or sanitizing prior to consumption; appropriate containers for food waste; physical distancing; not sharing food/drink) will be followed. At Central, breakfast and lunch will be handled in the following manner:

- Breakfast will be provided to all students as they enter the building. Tables will be set up as grab & go. Breakfast will be served to any student arriving at school before 9:20 a.m., unless FFSD transportation is delayed.
- Lunch will be provided to students in their classroom.
- Pre-packaged items will be utilized whenever appropriate

Physical Education and Recess:

Physical Education (PE)

Classes will take place in a gym with 3-6 feet of physical distancing for aerobic activities, while also wearing a mask.

All students will be required and encouraged to participate in their assigned PE class, regardless of the class being administered in the live, synchronous, or asynchronous format. Grading criteria will be presented and reviewed by each student's teacher.

Elementary School Recess

We believe that students need an outdoor break within their school day, free of academic tasks. To facilitate distancing, recess periods for elementary students will be staggered throughout the day.

Masks will be worn at recess. Equipment that can be used individually will still be permitted (e.g. jump ropes, hula hoops, kickballs). Students will be allowed to play on playground structures, and will be required to wash their hands prior to and after recess.

Daily Schedules and Routines:

Primary School Details

- Teacher Daily Schedule
 - Pre K - 2nd grade teacher work day is 8:50 am - 4:25 pm
- Student Daily Schedule (virtual and in-person)
 - Pre K - 2nd grade is 9:20 am - 4:10 pm

Instructional Delivery will occur two ways:

- **In-person instruction** will be delivered by a teacher in the classroom to students in the classroom. In-person students will remain at their desks/tables with their chromebooks and necessary materials. The teacher will teach from their desk using the technology and materials necessary for instruction. The technology platforms that have been used virtually will remain the same. Teachers and students will access Canvas, Zoom, Seesaw, and the other resources they utilized during their virtual learning experience. Everyone will maintain a minimum of 3' distance between each other at their desks/tables.
- **Virtual instruction** will be delivered the same way that students have experienced so far this year. Teachers and students will access Canvas, Zoom, Seesaw, and the other resources that have been utilized during the virtual learning experience.

Teachers will provide instruction in their classrooms for virtual and in-person students at the same time.

Shared Materials

Shared materials will be reduced as much as possible; however, there are items that need to be used by multiple students over the course of the semester. These items will be set aside and/or immediately sanitized after student use. Handwashing after shared materials will also be required.

We believe in the value of books as part of our reading programs and a critical component of developing a love of learning in children. Therefore, students will still have the opportunity to check out books from the school or classroom libraries. We will follow the procedures that have been developed by public libraries and have been shown to be effective:

- Classroom books may be borrowed for student use.
- Returned books will be held for 24 hours to reduce the transmission of germs/viruses.

Shared classroom materials will also be sanitized after student use. Work or projects that must be collected from students will be quarantined for 24 hours before and after teacher review.

Elementary teachers often create ‘centers’, learning activities with a set of materials where students interact with the materials to solidify their understanding of a concept. Where possible, students will be given individual materials to accomplish these goals.

In early childhood, students engage and interact with the natural world as they grow, learn and develop. We know that young children learn best through play. While we will make every effort to socially distance students and provide separate manipulatives when appropriate, some items and spaces may be shared. To ensure student’s safety we will classroom distance as often as possible, meaning our classroom as a whole will function distanced from other classrooms. In addition, shared materials within the classroom will be cleaned and disinfected frequently. High touch surfaces such as dramatic play materials, blocks, cots and other items will be disinfected each night and ready for student use the following day.

In early childhood, sheets and blankets will be kept at school M-Th for students enrolled in full day preschool. Items will be sent home at the end of the day Thursday to return on Monday. Sheets and blankets should be washed prior to returning to school on Monday.

Probe (Gifted Services)

Probe classes will continue for students who qualified for gifted services. Instruction will continue virtually. Students will log into their Gifted Teachers’ session on scheduled dates and times.

Special Education Services

Students will continue to receive all services as outlined in his/her IEP, regardless of the parent’s declaration of “in-person learning” or “virtual learning”. The instructional platform for all students will continue to be Canvas and ZOOM. In the case of a special education teacher being quarantined and unable to teach, a trained paraprofessional or substitute will provide educational services. All meetings called for the purpose of an evaluation, planning, or determination of services by Special School District staff will be held virtually using the ZOOM platform. In advance of the meetings, all attendees will receive an invitation via email including the ZOOM link. For building specific information, please contact the assigned Area Coordinator.

Social Emotional Supports

Addressing the social-emotional needs of students remains an important aspect of Central and we recognize students will not be ready to engage in formal learning until they feel physically and psychologically safe. Establishing a sense of safety and community may take weeks or even months and all staff are prepared to provide support. As we re-enter school, we will create an intentional focus on social and emotional skill building, mental and behavioral health, personal safety and self-regulatory

capacity, which likely regressed due to the lack of social interactions between peers and teachers. If you would like someone to contact you for additional support for your child(ren) please use this [link](#) to make your request. A district representative will contact you within 72 hours.

Focus Priorities: Connections, Relationship Building, & Routines

- Collaboration between the Ci3T Core Team, counselors, administration, and teachers.
- PK-5 teachers will deliver Second Step community rebuilding lessons and morning meeting activities.
- PK-12 teachers will facilitate community building circles
- [School Counselors](#) will deliver lessons to students about exploring and handling feelings, provide individual and small group counseling, and make referrals to outside agencies as needed.
- [School Social Workers](#) are available to assist your family as your student(s) transition back to school.
- St. Louis Children’s Service brings specialized services and programs to our schools through our [partner agencies](#) and are ready to support students with mentoring and counseling.

Technology:

Elementary Devices

Devices will be kept at school M-Th and be sent home at the end day Thursday to return on Monday. Students will need to bring their power cords the 1st day back.

Campus Visitors:

The District campus will be closed to all visitors due to the pandemic.

Exceptions are: service workers approved by the district administration office, and parents/guardians approved by principal in emergency situations. All visitors will complete a covid screener.

Building Readiness:

Cleaning

All spaces have been cleaned and disinfected, and equipped with disinfecting spray or disinfecting wipes for adult use. Each class room has been equipped with a hand sanitizer floor stand and dispenser. Hand sanitizer dispensers have been mounted throughout the building in hallways, office areas, cafeterias and gyms. Custodial staff will disinfect high-traffic areas as often as possible throughout the day, and all surfaces will be cleaned and disinfected each evening.

HVAC

All Air Handling Units (AHUs) have been inspected and are working properly, all exhaust fans are in working order. District-wide, all air filters have been replaced and will be replaced based on a stringent schedule to assure safety. The HVAC systems operate using air filtered through the highest possible rated filter and the air in the building is replaced every 15 minutes with filtered air to assure safety and air quality.
